**Subject:** Microsoft Settlement

To: Judge Kollar-Kotally,

I am writing to respectfully file my objection to the proposed settlement before the court in Microsoft vs. US.

As a daily user of Microsoft's products, I would like to have more options from its competitors. The Proposed Final Judgment allows a government sanctioned monopoly which is bad for all computer users and American business. The proposed agreement violates the three required standards from the courts, and is not even enforceable. It threatens all Microsoft competitors, and I object to this special treatment.  
Thank you for your kind consideration.

Boyd Johnson, Ph.D.
